Length:

Instructions for the correct suspension of the Backstop-Netting black - ultra safe:

- Guide the hooks onto the steel wire.
- Hook the Backstop-Netting into the hooks.
- Attach the steel wire to 2 fixed points. The holder must not loosen.
- Ensure a suitable height so that the Backstop-Netting can hang freely.
- When the Backstop-Netting hangs, align the Backstop-Netting so that it folds. The standard value here is 10% of the nominal length.
- Set up a security area behind the Backstop-Netting which must not be entered by persons.
- Make sure that the rough side is at the front and the smooth side at the back!

Recommendation for correct function:

- Check the Backstop-Netting green - extra safe for damage before each use and replace it if necessary.
- Before each shot, make sure that there are no people or animals behind the Backstop-Netting black - ultra safe.
- Never shoot from a distance less than 15m / 45 feet.

Guarantee:

- this Backstop-Netting has been tested intensively and has an excellent stopping effect. However, as with all Backstop-Netting, no guarantee can be given for a one hundred percent stop effect.
- Depending on the bow, pull weight and arrow material, the Backstop-Netting black - ultra safe should be hung up in two layers to improve the stopping effect.
- We do not take over a guarantee for a wrong or abusive use.
